

Dog Bark Eliminator
Ultrasonic Dog Trainer Personal Siren Flashlight

Congratulations on your purchase of Dog Bark Eliminator. This unit was designed to transmit ultrasonic waves that are able to be heard by dogs up to 50 feet away. The ultrasonic sound emitted by Dog Bark Eliminator gets the dogs' attention and helps coach them towards improved behavior. The sound is irritating to dogs, and is inaudible to humans. Dog Bark Eliminator is ideal for training dogs or for mailmen, speed walkers, joggers and everyone. Dog Bark Eliminator can be used as a coaching device. Help control dogs that dig through your trash or flower beds! Coach your dog on what furniture they're not allowed on! Use the high-pitch signal to train a dog and improve its behavior.

PARTS DIAGRAM:

Directions for Use:

Installing the battery:

1. Snap off the cover to install on (1) 9V battery (battery not included)
2. Snap cover back into place.

Please Note:

- Dog Bark Eliminator ultrasonic sound output has not shown to be harmful to humans or animals.
- Monitor your flashlights intensity. If it appears to weaken, replace the battery. Always dispose/recycle batteries according to State and Local guidelines.

Operation:

1. To turn power on the flashlight, press and hold the side button (See Illustration). To turn off the flashlight, release the side button.
2. To activate the ultrasonic power, press and hold down the Ultrasonic Bark Eliminator button (See Illustration). To deactivate the ultrasonic wave, release the Ultrasonic Bark Eliminator portable button.
